Professional Experience

Senior Frontend Developer

Remote, Advanced dashboard

Jan 2023 – Feb 2024

- Developed a dynamic dashboard using AG-Grid, featuring efficient data management, custom column filtering, sorting, and inline editing.
- Created complex forms with Formik and Yup, providing adaptive inputs based on user selections for a seamless data entry process.
- Built multi-layered dialog windows to simplify workflows like form submissions and error handling.
- Implemented advanced filtering options with cascading dropdowns and a Date Picker for precise data selection.

Senior Frontend Developer

Remote, Truckload reservation

Nov 2022 – Oct 2023

- Implementation of user interfaces using react.js with typescript language, focusing on application performance.
- Reduced booking time and provided a flawless experience for drivers.
- Optimized application performance, reducing page load times by 30%.
- Developed dynamic components and integrated with backend APIs to manage load reservations and track statuses.

Senior Frontend Developer

Remote, sports booking

May 2020 – May 2021

- Designed and developed a sports booking web application with an admin dashboard and payment portal using react.js.
- Minimizing the bundle size of the project.
- Mobile and Windows software development (Web view).
- Modular design with role-based access control.

Projects

• AG-Grid Dashboard

<https://bita-dashboards.com>

Completed: June 2024

- Designed and implemented a comprehensive and user-friendly system to streamline scheduling workflows and provide a modern dashboard to simplify processes for drivers and administrators.

• Truck cargo reservation App

<https://bita24.erfjs.com>

Completed: June 2023

- Developed a responsive and secure truckload booking application with an optimized user interface, delivering a fast, seamless, and engaging driver experience.

• Social Media Platform

<https://Azad.im>

Completed: June 2022

- Designed and implemented the user interface of a social network application, featuring functionalities like following, commenting, and a dedicated player, using React.js and Redux, with a responsive UI based on Material-UI.

• Sport App

<https://sport-bet.com>

Completed: June 2021

- Developed a sports booking web application with a modular design, live updates via WebSockets, admin dashboard, payment portal, multi-language support, and role-based access control for a seamless user experience.

• My Portfolio

<https://Erfjs.com>

Completed: June 2020

- Developed a lightning-fast landing page using React, Next.js, and Styled Components, featuring a minimal design and modern mono-repo architecture.
